Operations	Case management, documentation, process improvement, support coordination, team mentoring
Emerging Tech	QA testing fundamentals, cybersecurity fundamentals, generative AI & automation tools
Development	React, TypeScript, Supabase / Postgres, Git, REST APIs, responsive web app development
Tools	Windows environment, Microsoft Office, email-based support, remote/user support, ticketing & documentation
Mobility	Valid BC Class 5 Driver's Licence; own reliable vehicle

PROFESSIONAL EXPERIENCE

Technical Support Manager **May 2022 - Dec 2023**

Pratham IT System Pvt. Ltd. - Kathmandu, Nepal · Hybrid

- Coordinated daily technical support operations and monitored open client issues to keep cases moving toward timely resolution.
- Owned client escalations end to end, providing clear status updates and calm, consistent communication until issues were resolved.
- Partnered with internal teams to diagnose software issues, clarify technical problems, and maintain consistent case management.
- Mentored support team members, strengthened troubleshooting documentation, and introduced more organized support practices.

Support Technician **May 2020 - Apr 2022**

Pratham IT System Pvt. Ltd. - Kathmandu, Nepal · On-site

- Delivered frontline support to software users by diagnosing issues, answering product questions, and resolving service requests.
- Maintained responsive client communication and tracked recurring problems to ensure reliable follow-up on open tickets.
- Documented fixes, issue patterns, and troubleshooting steps, improving service consistency and future resolution speed.
- Contributed to smooth daily support delivery through teamwork, accountability, and a customer-first approach.

Software Support Technician Intern **Jan 2020 - Apr 2020**

Pratham IT System Pvt. Ltd. - Kathmandu, Nepal · On-site

- Assisted with software support, issue logging, troubleshooting, and day-to-day user requests in a client-facing environment.
- Built hands-on experience in technical problem solving, support workflow discipline, and professional client communication.
- Supported the team in delivering accurate, timely service while developing troubleshooting and documentation habits.

PROJECTS

Budgetly - Personal Finance Web App **2024 - Present**

Vite · React · TypeScript · Supabase · Netlify

- Built and maintain a full-featured personal finance web app, using hands-on troubleshooting, responsive design, REST APIs, authentication, and production deployment.
- Tested and fixed application issues including API-key exposure and Postgres row-level security bugs; improved maintainability with modular refactoring and TypeScript tooling.

EDUCATION

Bachelor of Business Administration (BBA) - Yorkville University, Vancouver, BC **Expected Dec 2026**
